Health Care Network, Inc.

"Those who are happiest are those who do the most for others."

- Booker T. Washington

A Message from Health Care Network

During the early 1980s, a taskforce was formed to address the needs of the community due to a spike in the unemployment rate across Racine County. Access to medical care for the uninsured was identified as a high priority. Led by Sr. Brenda Walsh OP, Health Care Network was formed and opened its doors in November 1987.

We would like to extend a special thank you to our volunteer providers, donors, and staff who enable us to continue our mission. Through our collective efforts, we at Health Care Network are confident that we can continue to improve lives throughout Racine County. We look forward to working with you to make 2024 another successful year!

THANK YOU FOR A SUCCESSFUL SATURDAY IN THE PARK 2023!

As 2023 comes to a close, we would like to acknowledge the generosity of our supporters and our community. Through both our silent auction and individual donations, Health Care Network was able to raise more than **\$54,000** from our Saturday in the Park event. These funds will allow Health Care Network to continue providing the quality medical, dental, and social services that have defined our organization.

Thank you for spending a beautiful summer day with us. We hope that everyone had a great time.

See you again next year!

**Save the Date:
Saturday in the Park 2024**

Saturday, July 27th, 2024
3:00 pm - 9:00 pm

Franksville Craft Beer Garden

9614 Northwestern Ave
Franksville, WI 53126

Special thank you to:

Our generous event sponsors, the Franksville Craft Beer Garden, Michael's signs, and the Special Events Committee.

Program Highlights

NEW ELECTRONIC HEALTH RECORD

In 2022, Health Care Network adopted the Electronic Health Record system *FHASES*, allowing for better patient care coordination.

BEHAVIORAL HEALTH

Social Worker Bridget Diaz runs the “Gato Valiente” group, which provides mental, behavioral, and emotional health support to adolescent patients.

In 2023, Bridget began a collaborative effort with Creation’s Wellness to provide yoga sessions to her patients and their families.

COMMUNITY HEALTH WORKER

Esmeralda Munoz (left) is the Social and Community Health Worker. Esme works directly with patients to help them access food, housing, and numerous other resources.

She frequently makes home visits to check on patients and works closely with HCN’s satellite clinic in Waterford. In 2023, Esme scheduled 300 patient appointments utilizing UnitedWI’s HUB care coordination system.

MEDICAL/DENTAL INTEGRATION PROJECT

In 2023, Health Care Network exceeded its 50% goal by achieving a remarkable 57% cross-enrollment rate between patients participating in our chronic disease programs and those enrolled in our dental programs.

PARTNERSHIP WITH ABC FOR HEALTH

The end of the federal COVID-19 Public Health Emergency in May 2023 began the process of Medicaid unwinding in Wisconsin. These changes left many residents of Racine County without health coverage.

To combat this loss, Health Care Network began working with ABC for Health, which offers training and resources to our staff regarding patient eligibility for health coverage.

UBER RIDES FOR HEALTH EQUITY

Studies show that lack of transportation is a significant barrier to health care access. This barrier particularly affects lower income and uninsured individuals, which impacts our organization directly.

In partnership with the non-profit organization Sostento, Health Care Network made free Uber rides available to all enrolled patients. This program helps expand patient access to services.

PREVENT BLINDNESS

Esme has been instrumental in operating the Prevent Blindness program. She has spearheaded efforts to help HCN patients qualify for financial assistance programs through other organizations. Enrollment in Prevent Blindness has allowed several patients to receive eye surgeries at no cost.

SELF-MONITORED BLOOD PRESSURE

The success of the Self-Monitored Blood Pressure Program has prompted the Wisconsin Association of Free & Charitable Clinics to transition to the National Cardiovascular Health Program, which will provide additional resources to help patients maintain their health.

From HCN's

DENTAL DIRECTOR

Dr. Ned Murphy

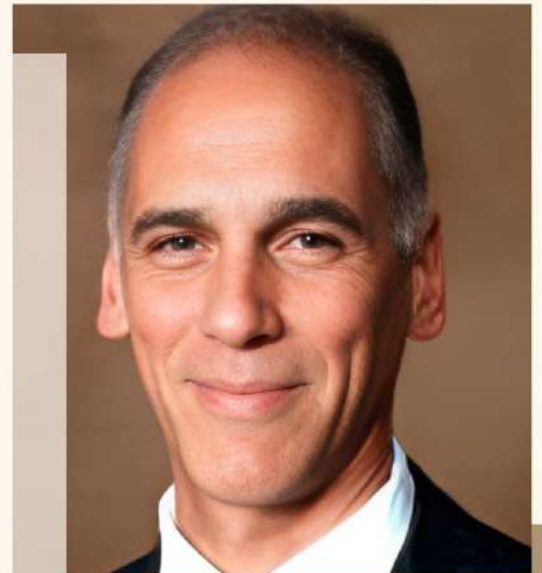

"Health Care Network has always been special to me. During my private practice years, I was able to see patients in my office with lower fees. Now retired, I give back by volunteering Mondays for onsite dental care. Makes me feel fulfilled while helping the less fortunate."

From HCN's

MEDICAL DIRECTOR

Dr. Nicholas Akgulian

"What I've always admired and enjoyed about HCN, and what has kept me coming back through the years, is the chance to work alongside a team who are dedicated and compassionate about providing care to the underserved. I am honored and excited to continue being of service as the clinic's medical director."

NEW MEMBERS OF THE HEALTH CARE NETWORK TEAM

Daisy Chavez is the Dental Coordinator at Health Care Network. She is originally from Houston, Texas and joined the organization in April 2023. She hopes to attend school to become a Dental Assistant or Dental Hygienist.

Owen joined Health Care Network in June 2023 as part of the Americorps VISTA program. He graduated from the University of Minnesota in May 2023 with a degree in Electrical Engineering. He is planning on applying to medical school in the summer of 2024.

Niko Khurlordava is an Americorps Public Health member who started at Health Care Network in September 2023. He graduated from Clemson University with a degree in genetics. He will begin medical school in 2024.

Chronic Disease and Oral Health

THE CORRELATION BETWEEN CHRONIC DISEASES AND ORAL HEALTH

For the past two years, Health Care Network has placed special focus on expanding the spectrum of care that individual patients receive. Sparked largely by studies highlighting the connections between dental conditions and chronic diseases, HCN has sought to increase the overlap in enrollment between our chronic disease and dental programs.

To increase dual enrollment between programs, Health Care Network regularly cross-references patients of both programs. Any patient only enrolled in one program is contacted by the Dental or Health Care Coordinator to discuss enrollment in the other program. This approach has led to 57% cross enrollment in 2023.

The practical effects of maintaining both oral and whole body health cannot be denied. Our data-driven approaches to project development are crucial to forwarding our mission of ensuring that all residents of Racine County have access to quality health care.

Those We Remember

Over the past year, our community mourned the loss of members whose families designated Health Care Network as a memorial site.

We are grateful to the families of those who have passed who, during their time of grief, have chosen to contribute to the future of Health Care Network through generous financial support in memory of their loved ones.

In Memory of
***DR. WILLIAM J.
LITTLE, JR.***

It is with great sadness that we say goodbye to our former Medical Director, and dear friend, Dr. William J. Little, Jr.

Dr. Little graduated from William Horlick High School in 1939. He earned both his undergraduate degree and his medical degree from the University of Wisconsin. After serving for two years in the U.S. Army, he opened a private medical practice which he operated until his retirement in 1989.

Dr. Little began volunteering at Health Care Network after retiring from private practice. In 1992, he was named as the organization's first medical director, a position that he held until his departure from Health Care Network in 2021. During his time as medical director, he helped to transform HCN from a temporary project into a permanent facet of the Racine County community.

Dr. Little received both local and national recognition for his work at Health Care Network. These recognitions include the 2001 "Community Service Award" from the Racine Downtown Rotary Club, and the 2007 "Jack B. McConnell, M.D. Award for Excellence in Volunteerism" from the American Medical Association. In 2021, Racine County Executive, Jonathan Delagrave, declared July 13th "Dr. William J. Little, Jr. Day".

We at Health Care Network offer our condolences to Dr. Little's family. We thank him for his 32 years of service to our organization, and we will miss him greatly.

Dr. Little at the 40th Reunion of the UW Medical School Class of 1944.

Dr. Little celebrates the 10 year anniversary of Health Care Network in 1997.

July 13th, 2021 was proclaimed "Dr. William J. Little, Jr. Day" by Racine County Executive Delagrave.

Student Volunteer Spotlight

KETHAN BAJAJ

Kethan has been a student volunteer at Health Care Network since Summer 2022. He is currently studying Biology at Northwestern University and hopes to attend medical school following graduation.

Kethan's dedication to service doesn't stop during the school year. While in school, Kethan volunteers with the Special Olympics, tutors other students, and is involved with an on-campus club that raises awareness about food allergies.

In his time at Health Care Network, Kethan has been recognized for his great patient care in the Prevent Blindness Program, furthering the implementation of the FHASES Electronic Health Record, and developing HCN marketing materials.

Thank you for all that you do Kethan!

Student Volunteer Spotlight

KADIN PURATH

Kadin began volunteering at Health Care Network in Summer 2023.

Kadin is an Economics major at Duke University and hopes to attend medical school in the future. While in school, Kadin writes articles about films for the student-run newspaper "The Chronicle".

Kadin has been a tremendous help in the transition to digital patient records. He has scanned and uploaded hundreds of paper charts to FHASES, enabling staff and volunteer providers to access information quickly and easily.

Thank you to all of our volunteers!

prescriptions assisted (Good Samaritan program)

APPOINTMENT BREAKDOWN

In 2023, Health Care Network provided 11,112 appointments, the greatest number since the implementation of the Affordable Care Act in 2014.

Our partnerships with local hospitals and providers have been critical to Health Care Network's success. During this year, the majority of appointments took place off-site, highlighting the importance of our strong network.

Total appointments by service type

HEALTH CARE NETWORK, INC.

By the Numbers

2023 Annual Report

Health Care Network has continued to increase its reach, as evidenced by the increase in appointments provided.

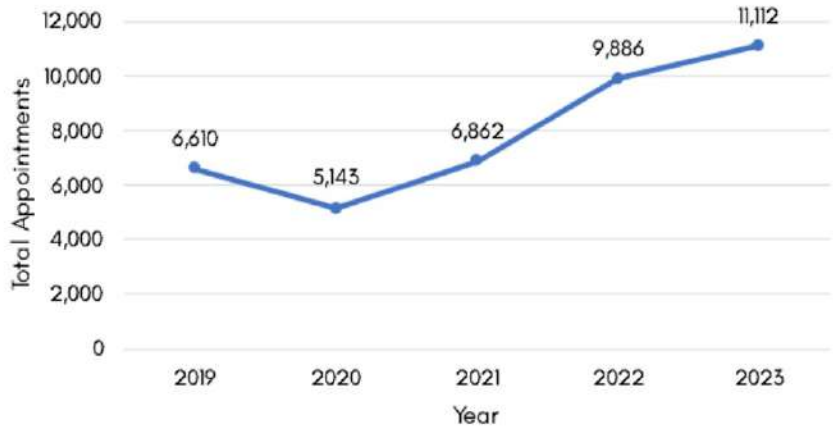

The Good Samaritan prescription assistance program continues to be an integral component to patient health outcomes.

Prescription costs have seen a dramatic rise in the last 3 years, only furthering the financial burden on those in poverty.

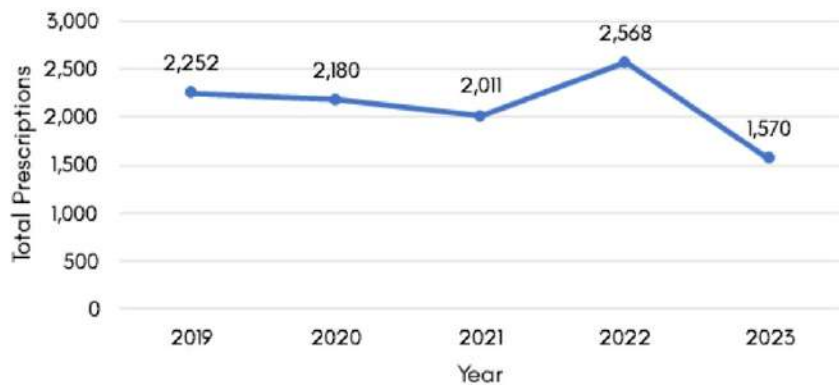

Between July 2021 and July 2022, the average price increase of 1200+ different pharmaceutical products was 31.6%, greatly outpacing the inflation rate of 8.5%.^[1]

HCN continues to make medication accessible to all patients by assisting in affording medications.

Client Demographics

2023 Annual Report

Ethnic Background

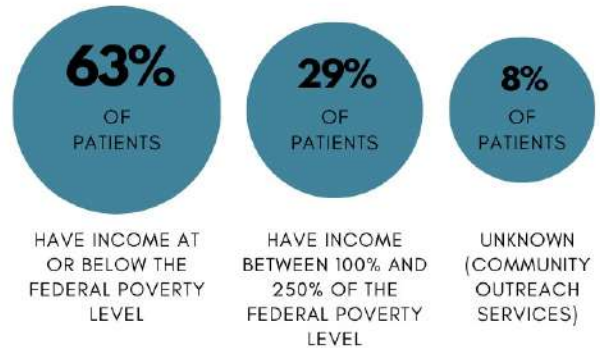

In fiscal year 2023, a majority of Health Care Network's patient population identified as Latino. There are often language barriers that restrict the ability of patients to access quality healthcare. To address these barriers, HCN offers Spanish/English translation services.

Income Level

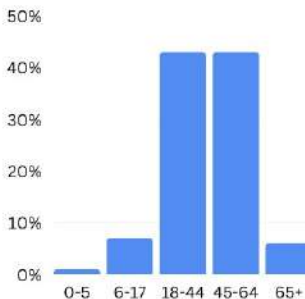

Access to health services was one of the top 6 issues indicated by respondents in the 2023 Racine County Health Needs Assessment.^[2] This is shown by the significant number of uninsured individuals throughout the county.

Per data collected in 2023, 7% of Racine County residents remain uninsured, reflecting the data for the State of Wisconsin as a whole.^[3] HCN is one of the only resources available to many of these individuals. HCN has provided care to over 12,700 patients since 1987.

Enrollment in HCN's programs allows these patients to receive a continuum of high-quality care at no/low-cost.

Age Distribution

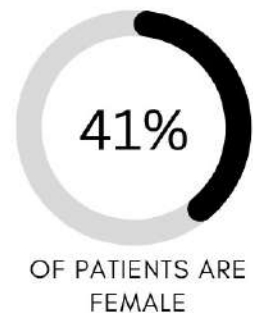

Of the more than 12,700 registered patients at Health Care Network, 72% are between the ages of 18-64.

Location

94% OF PATIENTS LIVE EAST OF I-94
